

Tips on ACL-8200 HS Acrylic Urethane Clear

Easy 4:1 mix Ratio No reduction necessary

Sprays thru a 1.3 or 1.4 with good results

2 coats thru 1.4 will give approx. 2.3 mils

If spraying thru a 1.3 tip and sanding and buffing, 3 coats are recommended for long term durability.

**It will be ready to sand and buff
between 14 – 17 hrs.**
